LUCAS MARTÍNEZ GROUP

Just 18 years old (Blanes, Girona, 1994), **Lucas Martínez** is a promising jazz saxophonist who already has on his music history with performances at festivals and recordings, which continues to further education with great teachers and that these days presents its first disc itself: "**FLY**".

His love for the music, and jazz in particular, due to the environment it lived at home since childhood as the son of drummer and pianist Cesar Martínez & Isabel Membrilla. He has trained as a musician with Jordi Cases, Gorka Benitez, Jon Robles, David Shepherd, Lluís Verges, and Toni Dotras Xavier Pujol, among others. He has also participated in numerous recordings as a *sideman*.

At this "**Fly**", **Lucas Martínez** has his own group, formed by **Jaume Llombart** on guitar, **Toni Pujol** at bass, **César Martínez** on drums, and as saxophonist **Lucas** himself. One group raised almost as "somewhat familiar" with musicians who have seen him grow as a person and as a musician.

Jaume Llombart is one of the most active guitarists, both with his own sextet as with Octopussy or Eladio Reinón. **Toni Pujol** can be found in numerous jazz albums with Havana Quartet, Moments or Xavier Dotras Trio, has also played with Lucas since its beginnings and **César Martínez**, playing among others with Xavier Dotras, Luis Gonzalez, Rocio Romero, Sic Trio etc ...

Apart from the quartet, have collaborated on the disc different musicians: **Jorge Rossy** on piano, musician with an extensive career and has played even with Wayne Shorter, **Felix Rossy**, considered one of the best trumpet today, **Juan Ramón Caro** on flamenco guitar, Mayte Martín musician and whose album "La Rosa de los Vientos" with the participation figures as Enrique Morente, **Isabel Membrilla** at piano, leading his own trio SIC Trio, and **Tati Cervià** voice at "Inside a Silent Tear" the only one sung piece, part of different groups such as Havana Quartet and Sefarjazz Misphaja.

The disc is a universe of intimacy that goes on for almost an hour. "**Fly**" is recorded and mixed in the study of Pol Maresme in Sant Pol de Mar (Barcelona), and **produced by Lucas and Cesar Martínez**. The debut album of Lucas Martínez is a collection of his favorite pieces, some standards and other pieces made by members of the group, as the yet unreleased "**Al César lo que es del César**" ballad composed by **Isabel Membrilla** or the rumba "**Sol y aire**" by Juan Ramón Caro. Another of the most curious is signed by Toni Pujol, "**Islero**", the famous bull gored to death in 1947 and the bullfighter Manolete here acquires another go.

To introduce this "**Fly**" have chosen "**On the Sunny Side of the Street**", a classic that have played before including Dizzy Gillespie, Sonny Rollins, Louis Armstrong, Benny Goodman and Billie Holiday and has not nothing to envy version **LUCAS MARTÍNEZ GROUP**.
